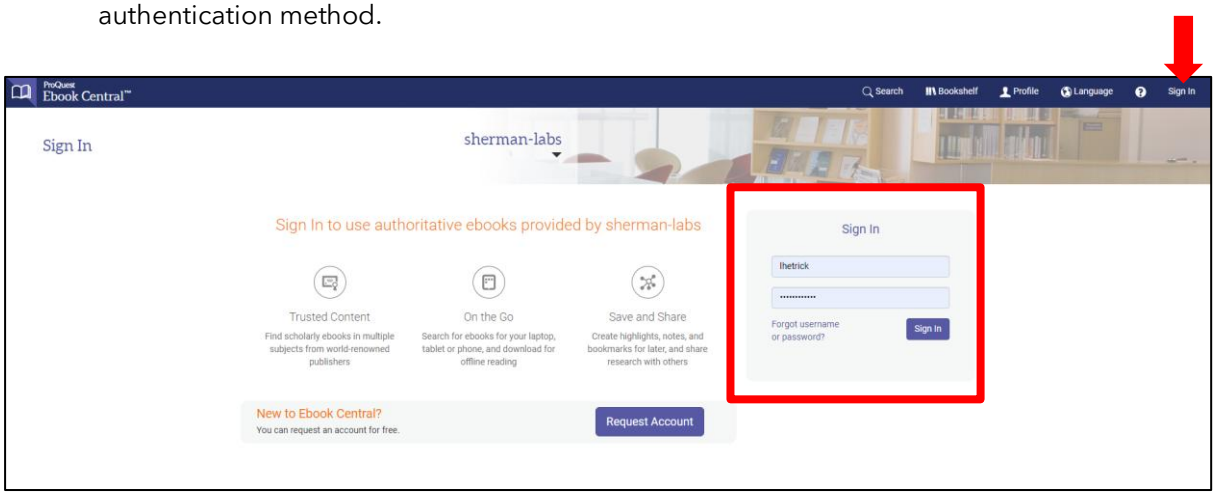
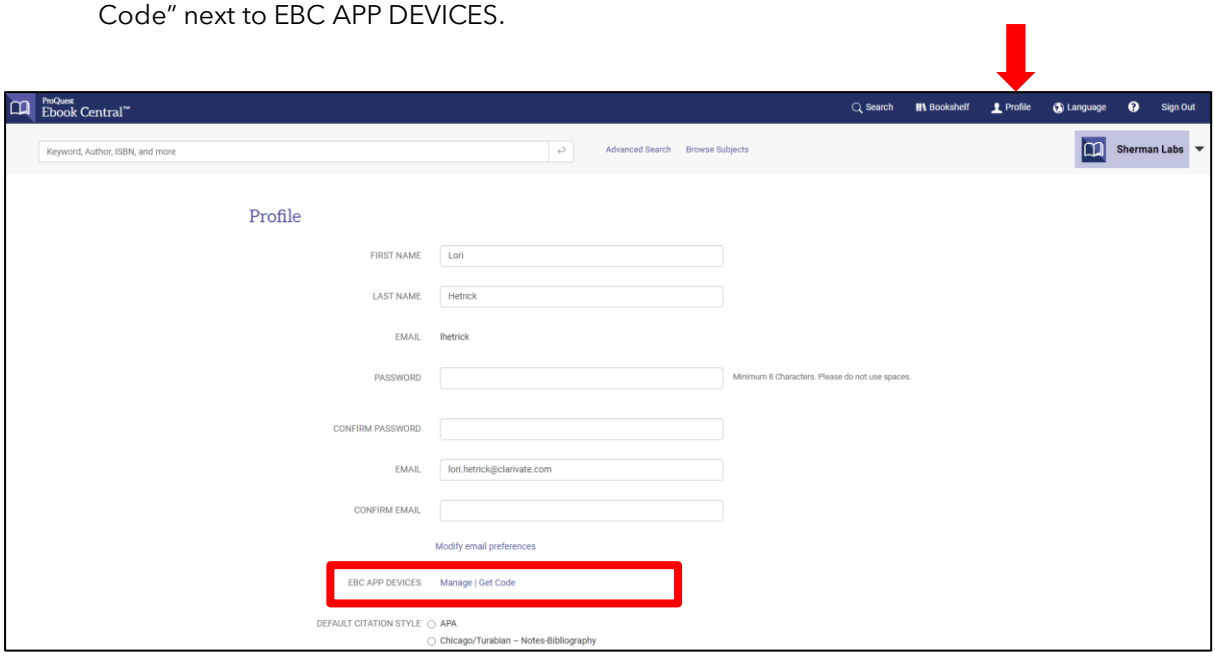
Installing the Ebook Central Reader App

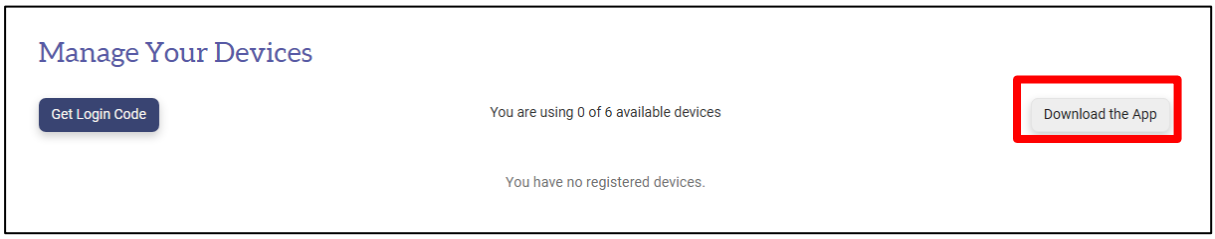
1. If you are not already signed in to your Ebook Central account, sign in either on your library's login page or the Ebook Central login page depending on your library's authentication method.



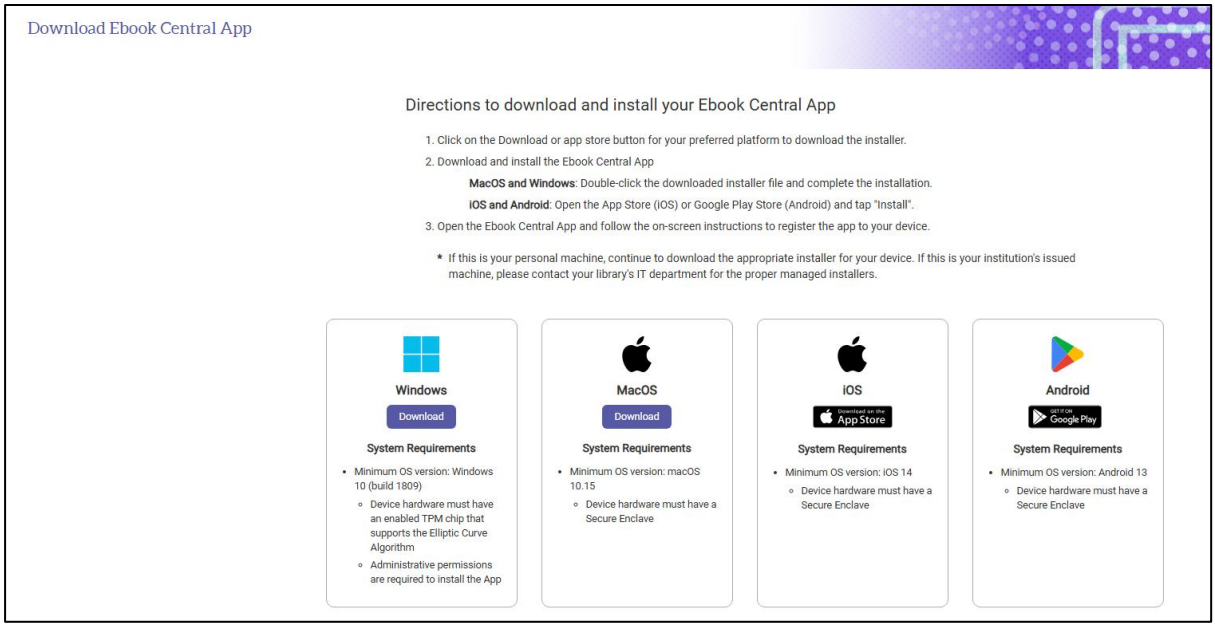
2. While logged into your Ebook Central Account, click on Profile, then select "Manage/Get Code" next to EBC APP DEVICES.



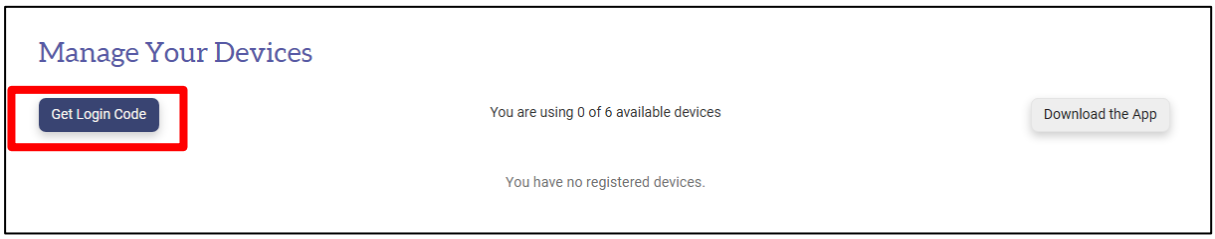
3. On the Manage Your Devices page Click on Download the App.



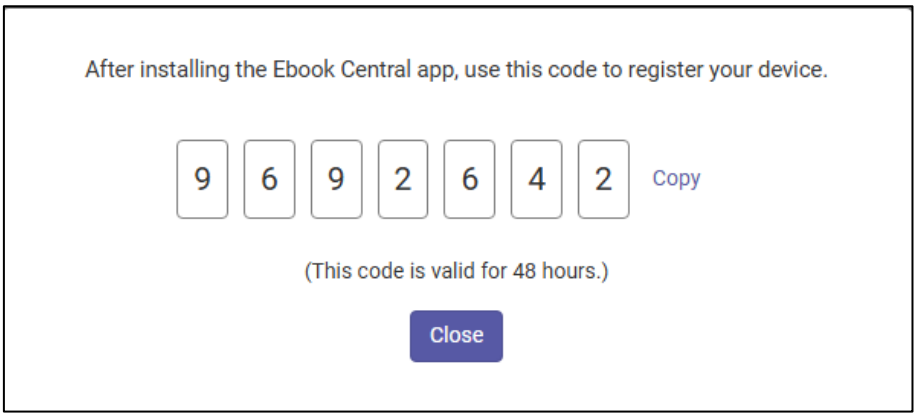
4. Click on the Download or app store button for your preferred platform to download the installer. Follow the instructions. Installation instructions apply to personal devices, as well as managed devices without restrictions set. For managed devices with restrictions, it will be necessary to speak with an administrator at your institution to determine IT policy for the device you are wanting to install the App on.



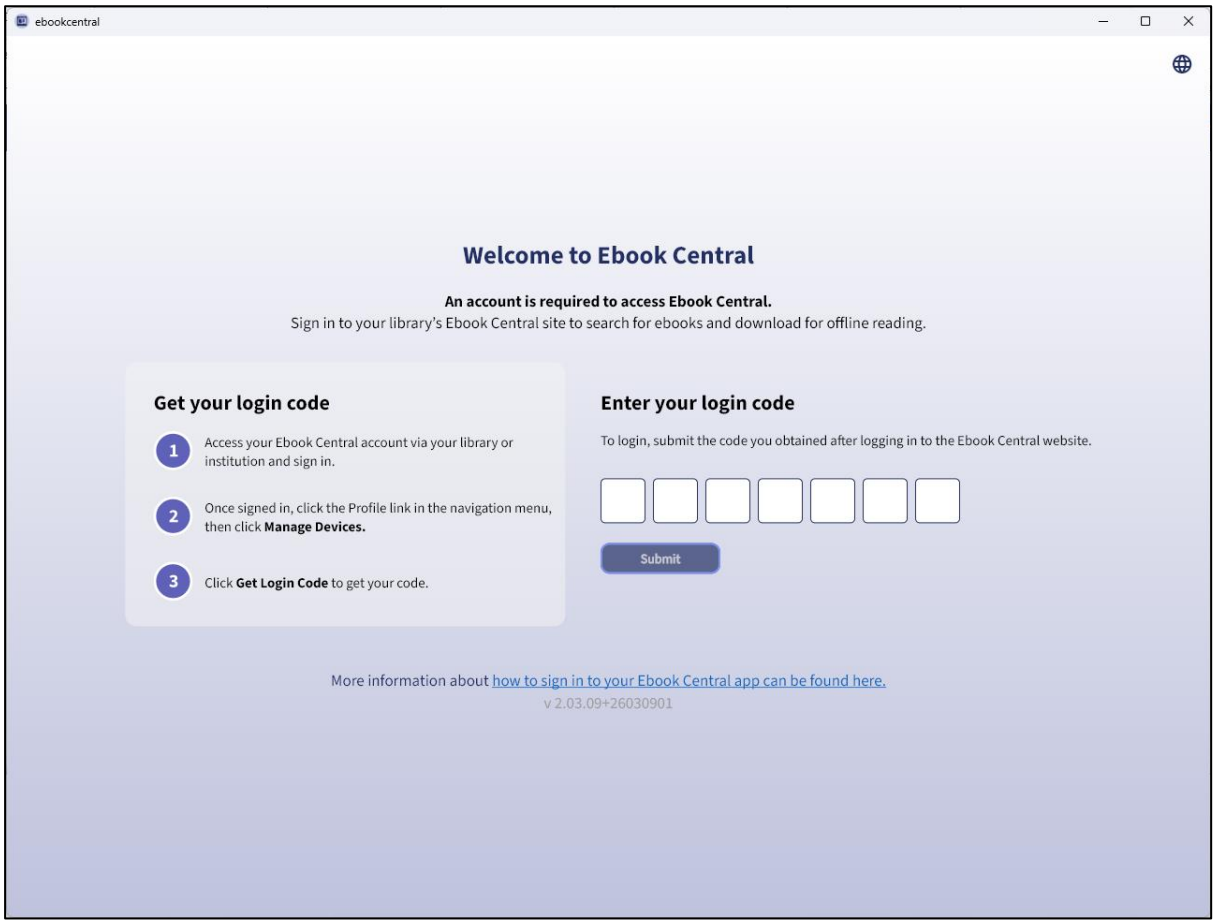
5. Once you've downloaded the app on your preferred device, go back to the manage your devices screen and select "Get Login Code".



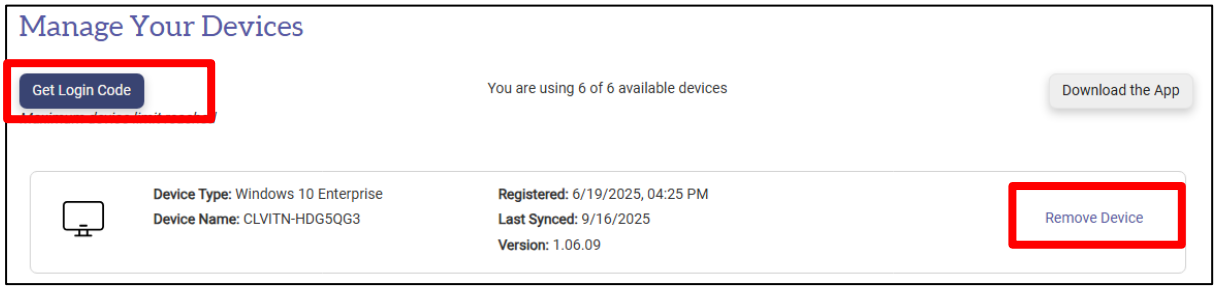
6. A login code will then be generated to register the App. This code will need to be entered in the App on your new device.



7. Open the app on your preferred device. You'll be prompted to enter the login code and click Submit.



8. On the manage your devices screen you will see a list of active devices. To register an additional device, select "Get Login Code". This code will need to be entered in the App on your new device. You can register up to 6 devices. You also have the option to Remove a Device.



About this guide:

- Updated September 2026.
- Please note that the Ebook Central Reader App access is at the moment only available within your institution. Please don't share this guide outside of your institution.
